1 – GENERAL INTRODUCTORY REMARKS ON THE CORPORATE GOVERNANCE SYSTEM

1.1 Preliminary information

During 2013, **no significant changes took place with regard to the essential profile within the overall corporate governance structure** of Banco Desio and the Group. In particular, the Bank’s systematic structure remains the one illustrated by means of the following diagram²:

(*) the Board of Statutory Auditors also performs the tasks of the Supervisory Body established pursuant to Italian Legislative Decree No. 231/2001 (hereinafter, also “SB 231”). For more detail, see section 7.

¹ “Deputy General Manager” means, in this report, any single General Manager or several Deputy General Managers appointed from time to time.

² In the diagram, the arrows indicate the appointment relationships between the main bodies (note that the BoD is also responsible for appointing the Deputy General Manager, the Appointed Executive and the Heads of the Internal Auditing Divisions).

The division of functions between the Shareholders' Meeting, the Board of Directors, the Board of Statutory Auditors and the Independent Auditing Firm is disciplined by legal and supervisory legislation, to which the **Articles of Association** refer. With regard to the general aspects, the division of the functions between:

- i) Senior Bodies (Board of Directors, Advisory/Proposal-making Committees³, Executive Committee)
- ii) Executive Parties (Managing Director and General Manager),
- iii) Technical-operating committees⁴
- iv) Internal audit divisions
- v) Appointed Executive

is disciplined, in observance of legal, supervisory and Articles of Association restrictions, by Group and **Corporate Bodies' Internal Regulations** (for the sake of brevity "Internal Regulations"), finally updated by the BoD on 20 December 2012, according to criteria which will be detailed in the following sections. With regard to the specific aspects not analysed by the Internal Regulations, reference is made to the "Organisational Structure and Description of the Functions", to "Policies" and "Consolidated Codes" regarding function/process/product and the "Internal Procedures", documents also approved by the Board of Directors.

In addition, the legislative system regarding the matters involved in this report remains characterised essentially by the following documentation⁵:

1. **The General Shareholders' Meeting Regulations** (see Section 10 below);
2. **The Information Flows Regulation for Corporate Bodies** finally updated by the BoD on 20 December 2012 and subject to operational refinements also in 2013, with the appropriate implementing provisions issued by the Managing Director;
3. **The Internal Procedure regarding Corporate Information** ("Corporate Information Procedure"), most recently updated on 29 January 2013, containing, among other things, the functioning of the Corporate Bodies in specific reference to the dissemination of related documentation and the handling of privileged information and the register of the individuals who have access to the same, as well as for the communication of Internal Dealing transactions;
4. **The Internal Procedure for Transactions with Associated Parties** and Article 136 of the CBL, finally updated on 29 January 2013, in compliance with Prudential Supervisory Provisions on risk assets and conflicts of interests with associated parties issued by the Bank of Italy, pursuant to Article 53 of the CBL;
5. **the "Policy" for the handling of conflicts of interest regarding investment services**, which the procedures used to identify the types of conflict of interest, potential or otherwise, in relation to the provision of any investment service or activity, related service, etc. make reference to, by way of implementation of the provisions acknowledging the MIFID Directive, (see paragraph 5 below);

³ The Advisory/Proposal-making Committees (Appointments and Remuneration Committee, Audit and Risk Committee, Related Party Transactions Committee) are composed solely of Board members and are, as such, defined as internal board committees.

⁴ The Technical/Operating Committees (Credit Facilities Committee, Finance Committee) consist of Executive Parties (MD and/or GM) and the Heads of specific corporate divisions.

⁵ As regards the legislative system described above, and more generally speaking, the company organisation, activities are in progress aimed at alignment with the Prudential Supervisory Provisions (Bank of Italy Circular 263/2006 – chapters 7, 8 and 9) issued in 2013 in relation to the internal audit system, IT system and business continuity. The activities will be detailed in the next reports as they are completed.

6. the “Policy” for the regulation of “personal transactions”⁶ in relation to investment services, issued in implementation of the provisions acknowledging the MIFID Directive and subject to operational refinements also in 2013;
7. the “Policy” that defines the Group’s overall risk propensity (“Risk Appetite”), intended as the maximum amount of capital that the Group is prepared to make available to hedge risks against a set expected return and that contains the general rules for business risk management with reference to each type of risk indicated in Prudential Supervisory Provisions of the Bank of Italy, supplemented in 2013 by specific provisions relating to risk activities with “Associated Parties” pursuant to point 4.

* * *

In the explanation in this report, the traditional layout was maintained that, owing to the lack of consistent provisions on the matter, takes into consideration the guidelines indicated from time to time by Borsa Italiana S.p.A. and by Assonime. In said context, the attached Table 4 was maintained, which included the schedule summarising the implementation status of the recommendations in the Code of Conduct for Listed Companies as per paragraph 2.2 below⁷ (for the sake of brevity “the Code of Conduct”).

This Report:

- has been drawn up in pursuance of Article 123-bis of the CFL, which lays down a series of information on the ownership set-ups, the corporate governance practices, the risk management and internal audit systems relating to the financial disclosure process, and the composition and functioning of the general meeting, board and audit bodies; the independent auditing firm is required to express a consistent opinion on certain information required by the aforementioned article 123-bis;

⁶ Personal Transaction is understood, for the specific purposes of the aforementioned “Policy”, as a trade in a financial instrument effected by or on behalf of a Relevant Person, where at least one of the following criteria is met:

- a. the Relevant Person is acting outside the scope of the activities he carries out in his capacity as a Relevant Person;
- b. the trade is carried out for the account of any of the following persons:
 - i. the Relevant Person;
 - ii. any person with whom the Relevant Person has a “Family Relationship” or “Close Links” ;
 - iii. a person whose relationship with the Relevant Person is such that the Relevant Person has a direct or indirect material interest in the outcome of the trade, other than a fee or commission for the execution of the trade.

A Relevant Person shall mean persons belonging to one of the following categories relating to each Group Company:

- a) members of “Corporate Bodies” (understood, also hereafter, as the Board of Directors and the Board of Statutory Auditors);
- b) shareholders who possess a significant equity investment in the Parent Company or in Group Companies;
- c) executives (including, also hereafter, the General Manager);
- d) employees;
- e) temporary workers and project-based contractors who participate in the provision of investment services and the exercise of investment activities;
- f) individuals who directly participate in the provision of services to the Group Parent and Group Companies based on an outsourcing agreement regarding the provision of investment services and related services.

Persons with whom the Relevant Person has a Family Relationship are intended as:

- a. the (not legally separated) spouse or the common law spouse of the Relevant Person;
- b. the children of the Relevant Person ;
- c. any other relative of the Relevant Person to the fourth degree (i.e. parents, grandparents, great-grandparents, grandchildren, first cousins, aunts, uncles and great-aunts and great-uncles) who has shared the same household as the Relevant Person for at least one year on the date of the Personal Transaction.

Parties with which the Relevant Person has Close Links means one or more individual or legal persons linked to a Relevant Person by:

- a) an equity investment (which means ownership, direct or by way of control, of 20% or more of voting rights or capital of an undertaking);
- b) control.

⁷ Code of Conduct for Listed Companies – Borsa Italiana – 2011 Edition

- has been approved by the BoD, subject to the assessment of the Independent Directors as per a specific recommendation in the Code of Conduct as assimilated in the Internal Regulations.⁸. This assessment is attached to said Report (Attachment A);
- is published, albeit as a separate document, together with the Report on Operations, which also contains the due references. Likewise, it contains references to the financial statement documentation (Notes to the Consolidated Financial Statements, Report on Operations, etc.), as well as the Remuneration Report as per the subsequent point, for the information contained therein which otherwise would be duplicated;
- is also published along with the Remuneration Report prepared in accordance with Article 123-ter of the CFL, which also contains the information required by Bank of Italy's Supervisory Provisions of 30 March 2011 regarding remuneration and incentive policies and practices in banks and banking groups.

This Report and the aforementioned Remuneration Report are also published on the website www.bancodesio.it in the Corporate Governance section.

1.2 Main aspects of the “corporate governance plan” pursuant to the applicable Supervisory Provisions⁹

The “corporate governance project” of Banco Desio drafted in 2009 and still in force is essentially structured on three legislative levels characterised by the Articles of Association, the Internal Regulations and the Consolidated Internal Audit System Code, whose main aspects are summarised below.

1.2.1. Articles of Association

Duties and powers of the corporate bodies

A.1 Board of Directors

The body tasked with strategic supervision is first and foremost reserved the decisions concerning strategic policies and transactions as well as business and financial plans. This provision is included in both the Articles of Association of the Parent Company and in the Articles of Association of the Italian Subsidiary Bank (for further details see section 3 below). Among the powers which cannot be delegated, the BoD is responsible for the appointment of the heads of the internal auditing and compliance divisions and the definition of the essential elements of the overall architecture of the internal audit system¹⁰ (subject to the favourable opinion of the Board of Statutory Auditors). This provision is included in the Articles of Association of the Group's Italian Banks (even though in the Italian Subsidiary Bank it effectively refers to functions performed by the Parent Company by virtue of outsourcing agreements, with particular reference to the internal audit, compliance and risk management functions).

⁸ The Independent Directors meet at least once a year in the absence of the other Directors (as a rule, at the time of the approval of the Annual Report on Corporate Governance and for the purpose of expressing their opinion on the aspects they are responsible for).

⁹ The provisions to which reference is made are contained in the applicable Bank of Italy Instruction of 4 March 2008 regarding the organisation and corporate governance of banks (hereinafter also the “Bank of Italy Instruction”) and interpretative notes. It should be noted that in December 2013, a Consultation Document was circulated containing amendments to said Provisions and that, at the date of approval of this Report, the document in question had still not been issued. The initiatives that will be implemented once the new regulations are issued will be described in the next Report.

¹⁰ Among the “essential elements of the overall architecture of the system of controls”, section 2.2 of the Bank of Italy Instruction indicates “powers, responsibilities, information flows, and handling of conflicts of interest”.

A.2 Board of Statutory Auditors

The body with auditing functions oversees the observance of the legal, regulatory and Articles of Association provisions, the correct administration, and the adequacy of the organisational and accounting set-ups of the Bank. The Articles of Association of the Parent Company and of the Italian subsidiary bank assign the Board of Statutory Auditors the related duties and powers, which are illustrated within said Articles, according to the structure indicated in section 2.2 of the Bank of Italy Instruction. Furthermore, as stated, the Board of Statutory Auditors performs SB 231 functions in both banks, taking account of the provisions of section 4 bis of Article 6 of the aforementioned Legislative Decree, and a specific recommendation in the Code of Conduct.

B. Composition of the Corporate Bodies

With regard to the Parent Company, the regulation of “list voting” is in force for the election of the members of the BoD and the Board of Statutory Auditors, already introduced in the Articles of Association, by virtue of Article 147-ter and Article 148 of the CFL. In addition, in 2013, the Articles of Association were amended in line with the “gender quota” regulations introduced in the cited articles of the CFL and Law no. 120/2011. The Articles of Association of the Parent Company and of the Italian subsidiary bank make provision for “independent directors”. For details, see sections 3 and 9 below.

C. Remuneration and incentive mechanisms

In both banks, the provisions of section 4 of the Bank of Italy Instruction are shown: i) in the Articles of Association with respect to the general principles, where the Ordinary Shareholders’ Meeting, in addition to establishing fees due to the Bodies it has appointed, approves the remuneration policies, including the plans based on financial instruments; ii) in the Internal Regulations with regard to the application guidelines (for more details also see section 6 below).

1.2.2. Internal Regulations

With regard to the regulatory provisions that are complementary to Articles of Association provisions as per the previous section 1.2.1, the Internal Regulations of the Italian Group Banks acknowledge the application guidelines of the Bank of Italy Instruction as per points A.2) Board of Statutory Auditors and C) Remuneration and incentive mechanisms (for further details also see section 6 below). With reference to point B) Composition of the Corporate Bodies, the general limits are extended to the Internal Regulations of the Italian Subsidiary Bank (Banco Desio Lazio S.p.A) on the accumulation of the offices by Directors and Statutory Auditors respectively, similar in part to those already adopted, by law and/or due to self-governance, within the Parent Company (for further details also see sections 3 and 9 below). It is also established, within the Internal Regulations of the Italian Group Banks, that the Statutory Auditors cannot undertake offices in bodies other than the Board of Statutory Auditors within other Group Companies, as well as with companies in which Banco Desio directly or indirectly holds a strategic investment¹¹. With reference to the role of Chairman of the Board of Directors, who according to the general principles expressed in the same Instruction, performs an important role for the purpose of encouraging internal dialogue and ensuring the balancing of the powers, in the Internal

¹¹ As indicated by section 2.2.e) of the Bank of Italy Instruction, “strategic” for such purposes is understood to mean the equity investment which is equal to at least 10% of the share capital or the voting rights during ordinary Shareholders’ Meetings of the investee company and 5% of the consolidated regulatory capital of the Banking Group.

Regulations of the Italian Group Banks it is specified that “the Chairman furthers the effective functioning of the corporate governance system, guaranteeing the balance of powers with respect to the Managing Director and any other executive Directors, as well as the General Manager”. For such purposes, the Chairman “supervises the organisation of the Board’s activities and the dissemination of related information, promoting the constant performance of the Board’s role in strategic oversight” and “acts as the spokesperson of the Board of Statutory Auditors and the advisory/proposal-making committees established within the Board of Directors”. For more details see also section 4.2 below.

1.2.3. Consolidated Internal Audit System Code¹²

The Consolidated Internal Audit System Code, finally revised on 20 December 2012, establishes that the Internal Audit System is made up of a series of rules, procedures and organisational structures which aim to essentially ensure the compliance of Group company operations with corporate strategies and the internal and external regulations. To this end, the Parent Company, as part of the Group’s management and co-ordination activities, exercises:

- a) strategic control on the evolution of the various areas of activities where the Group operates and the impending risks on the portfolio of activities carried out;**
- b) management control aimed at maintaining the balance of the economic, financial and equity conditions, both for individual companies and the Group in its entirety;**
- c) technical-operating control aimed at evaluating the various risk profiles contributed to the Group by the individual subsidiaries. For more information, see also section 7 below.**

2 – GENERAL INFORMATION ON THE OWNERSHIP SET-UPS AND ON OTHER CORPORATE ASPECTS, ON COMPLIANCE WITH A CODE OF CONDUCT AND ON THE GROUP STRUCTURE

This section contains information on the ownership set-ups and the corporate aspects **pursuant to Article 123-bis of the CFL**, as well as on the Group structure and the management and coordination activities, according to the various banking and statutory rules. Unless specified otherwise, the information listed below refers to the Italian Group Banks.

2.1 OWNERSHIP SET-UPS AND OTHER CORPORATE ASPECTS OF BANCO DESIO (article 123-bis of the CFL, section 1)

a) Structure of the share capital

Banco Desio’s share capital, fully subscribed and paid-in, is made up of a total of 130,202,000 shares (with a par value of Euro 0.52 each), of which 117,000,000 ordinary shares (around 90% of the total) and 13,202,000 non-convertible savings shares (around 10% of the total). The ordinary shares, listed since 1995 in the MTA (On-line Equity Market), grant the holders the rights and obligations envisaged by current legislation (in particular, the right to profits and voting rights pursuant to Articles 2350 and 2351 of the Italian Civil Code), without Articles of Association exceptions or limitations.

The non-convertible savings shares, issued at the time of the share capital increase and listed on the MTA in 1999, have the following specific features, established by special legislation (Article 145 of the CFL) and by the Articles of Association: they lack the right to vote during ordinary and extraordinary shareholders’ meetings; they can be bearer shares, except those held by Representatives; they are not convertible, on an optional basis, into ordinary shares; they have a preference with regard to the allocation of the profit for the year, which must never be less than 7% of

¹² Said consolidated code will also see activities to bring it into line with the aforementioned Prudential Supervisory Provisions (Bank of Italy Circular 263/2006 – chapters 7, 8 and 9) in relation to the internal audit system, IT system and business continuity.

their par value; in the event the company is wound up, they have a right of pre-emption with regard to the reimbursement of capital for their entire par value; in the event of exclusion from trading of the ordinary and savings shares, these savings shares automatically change into shares with a limited right to vote for the resolutions of the Extraordinary Shareholders' Meeting, without prejudice to the equity privileges indicated above. With regard to the category organisation, refer to section 11.

Other specific categories of shares or financial instruments sharing in the profit endowed with specific equity or administrative rights have not been issued nor is the option to issue the same envisaged by the Articles of Association. For information on the shares subject to assignment to employees of Group companies, please refer to the appropriate Information Document of the Stock Grant Plan, pursuant to Article 114-bis of CFL and Article 84-bis of Consob Regulation no. 11971/99, available on the website, www.bancodesio.it, in the section "Investor Relations / Assemblee / Assemblee 2011" (Investor Relations / Shareholders' Meetings / 2011 Shareholders' Meetings), as well as an attachment to the Remuneration Report as per Article 123-ter of the CFL.

b) Restrictions on the transfer of shares

No voluntary or Articles of Association restrictions on the circulation of the shares are envisaged, such as limits to the possession of shareholdings or approval clauses. Furthermore, making equity investments in the Banks' share capital that would exceed the specific percentage thresholds is subject to restrictions established by the CBL and Supervisory Provisions.

c) Significant investments

Shareholders who hold equity investments in Banco Desio of **over 2%** as of 31 December 2013 were as follows:

- with regard to the share capital represented by a total of 117,000,000 ordinary shares:

- Brianza Unione di Luigi Gavazzi & C. S.A.p.A. (controlling interest)	52.92%
- Avocetta S.p.A.	8.60%
- Stefano Lado (of which 5.88% via Vega Finanziaria S.p.A.)	7.93%
- Gerolamo Gavazzi (of which 2.25% via Averla S.p.A.)	2.66%

- with regard to the share capital represented by a total of 13,202,000 savings shares:

- Brianza Unione di Luigi Gavazzi & C. S.A.p.A.	44.69%
- Avocetta S.p.A.	10.62%
- Stefano Lado (of which 4.33% via Vega Finanziaria S.p.A.)	6.06%
- Gerolamo Gavazzi (of which 3.58% via Averla S.p.A.)	3.96%

The information on significant investments was essentially acquired on the basis of the entries in the Shareholders' Register, as well as the indications received by the company in accordance with Article 114, section 7 of the CFL (Internal Dealing) and Article 120 of the CFL (Ownership set-ups).

d) Securities which grant special control rights

No securities have been issued which grant special control rights.

e) Shareholdings of employees: voting procedure

Refer to letter a) above regarding the 2011-2013 Stock Grant Plan for Banco Desio Group management, as well as the specific Disclosure Document mentioned therein.

f) Restrictions on voting rights

Restrictions on voting rights are not envisaged, except for the above limitation regarding savings shares and without prejudice to the restrictions envisaged by ad hoc legislation (for example: failure to acquire authorisation for the purchase of significant investments, not meeting “good standing” requirements by those investing in the share capital, failure to fulfil specific disclosure obligations vis-à-vis the Bank of Italy and Consob, etc.).

g) Agreements between shareholders

There are no shareholders’ or corporate agreements between shareholders, as envisaged by current provisions (Article 20 of the CBL and Article 122 of the CFL).

h) Change of control clauses

Banco Desio and/or its subsidiaries do not have any significant agreements outstanding, whose effectiveness is subordinated, or which change or cease in the event of any change in the control of the Bank.

i) Indemnity paid to directors in the event of early termination of the relationship

Refer to section 6 of the Remuneration Report.

l) Appointment and replacement of Directors and Statutory auditors and Article of Association amendments

The appointment of Banco Desio’s BoD has been disciplined by the procedure set forth in Article 147-ter and Article 148 of the CFL. The BoD is made up of a minimum of 8 and a maximum of 11 members, according to the decisions of the Shareholders’ Meeting, and is appointed by means of “majority” list voting which, in the event of the presentation of two or more lists of candidates, envisages the appointment of all the Directors less one from the list which obtained the greatest number of votes expressed during the Shareholders’ Meeting (majority list). One Director is appointed from the minority list which has obtained the greatest number of votes expressed after the majority list, provided that the number of votes is at least equal to half of the quorum necessary for the presentation of the lists and on condition that the minority list is not linked to the shareholders who have presented or voted for the majority list.

These lists can be presented by shareholders who are owners of ordinary shares equal to at least 2.5% of the share capital represented by ordinary shares and must be presented at least 25 days before the Shareholders’ Meeting, accompanied by: documentation proving the identity of the shareholders and their legitimate right to present the list; individual declarations accepting the candidacy and statement of compliance with the prescribed requirements, including independence requirements, as well as the Curriculum Vitae of the candidates; declarations, of the shareholders who present the minority lists, of the absence of any link with the majority shareholders.

In the event the Director appointed from the minority list leaves office, the BoD is obliged to co-opt, where possible, a non-elected candidate from the same list. In any event, during the Shareholders’ Meeting called to resolve the replacement of the Directors appointed from minority lists, the candidates can only be presented by other shareholders not linked to those who have presented and voted for the majority list at the time of BoD appointment and the appointment of the Director takes place by means of a relative majority.

With regard to the Board of Statutory Auditors, a similar procedure applies with the following changes: two Standing Auditors and two Alternate Auditors are appointed from the majority list; a Standing Auditor, who will take on the office of Chairman, and an Alternate Auditor, are appointed from the first minority list not linked to the majority shareholders, irrespective of the number of votes obtained. In the event that in the 25 days prior to the Shareholders’ Meeting, only the majority list has been duly

presented, the deadline for the filing of the minority lists is extended by 3 days and the presentation quorum is halved.

Amendments to the Articles of Association are the exclusive responsibility of the Extraordinary Shareholders' Meeting, except in those cases where the law and the Articles of Association allow approval by the BoD. In any event, the Article of Association amendments are subject to the prior assent of the Bank of Italy pursuant to Article 56 of the CBL. For further information relating to the management body and the auditing body, see sections 3 and 9 below.

m) Powers pursuant to Article 2443 of the Italian Civil Code and authorisations to purchase own shares

No powers have been granted to Banco Desio's BoD for increasing the share capital as per Article 2443 of the Italian Civil Code, nor for issuing financial instruments sharing in the profits. There are no Shareholders' Meeting authorisations for the purchase of own shares in force.

2.2. COMPLIANCE WITH A CODE OF CONDUCT REGARDING CORPORATE GOVERNANCE (Article 123-bis of the CFL, section 2, letter a)

As illustrated in previous Reports, Banco Desio complies with the Code of Conduct for Listed Companies as from its first issue by Borsa Italiana. In detail, the last edition of the Code in force from 2006 was adopted on a generalised basis, with the exception of certain criteria of a circumscribed nature that was considered not necessary or appropriate to assimilate fully. The application of the most recent edition of the Code (December 2011) was subject to approval by the Board of Directors on 20 December 2012. For detailed information on the status of adherence to individual recommendations of the Code, refer to the attached Table 4. As regards, specifically, the application of the Code's recommendations on remuneration of Directors and Executives with strategic responsibilities, see section 6 below. The Code is available on the website www.borsaitaliana.it.

Additional information laid down by Article 123-bis, section 2 of the CFL, referring to financial disclosure (letter b), the functioning of Shareholders' Meetings and dealings with shareholders (letter c) and the composition/functioning of management and audit bodies (letter d) is provided, specifically, in sections 3, 7, 9 and 10 below.

2.3. GROUP STRUCTURE AND MANAGEMENT AND COORDINATION ACTIVITIES

Banco Desio is the Parent Company of the **Banking Group**, pursuant to Articles 60 and 61 of the CBL, which currently includes the following companies:

Banco Desio e della Brianza SpA	Parent bank
Banco Desio Lazio SpA	Wholly-owned subsidiary bank (100%)
Fides SpA	Finance company enrolled in the Financial Intermediaries Registry, indirectly controlled via Banco Desio Lazio (100%)
Brianfid Lux SA	Luxembourg-based investment company put <u>into liquidation</u> on 14 December 2012 and directly controlled (100%)
Credito Privato Commerciale SA	Swiss bank put <u>into liquidation</u> on 8 June 2012 and now currently directly controlled (100%)

Rovere Società di Gestione SA Luxembourg-based investment company currently directly controlled (70%) and via Banco Desio Lazio (10%), for a total holding of 80%

Banco Desio exercises management and co-ordination activities over these companies, both according to current banking system provisions and in accordance with Article 2497 et seq. of the Italian Civil Code.

Credito Privato Commerciale SA in liquidation, currently the only subsidiary with registered offices in a non-EU nation, observes the transparency conditions laid down by Article 36 of the Consob Market Regulations (Reg. 16191/2007). In particular, with reference to said Swiss subsidiary, Banco Desio makes available to the general public (on its own website www.bancodesio.it, section Investor Relations/Bilanci e Relazioni - Investor Relations/Financial statements and Reports) the accounting schedules drawn up for the purposes of the consolidated financial statements, schedules which include at least the balance sheet and income statement; acquires documentation pertaining to the Articles of Association, the composition and powers of the corporate bodies; ensures that the subsidiary provides the auditor of the Holding Company with all the information necessary for carrying out the accounting audit and puts together an administrative-accounting system suitable for ensuring that the Holding Company and the auditor receive the necessary information for the preparation of the consolidated financial statements; all of these activities are carried out in consideration of liquidation procedures specific to Swiss law. For the purposes of completeness, note that the non-Italian laws to which foreign subsidiaries are subject (two of which are in liquidation), as stated, do not influence Banco Desio's corporate governance structure.

Brianza Unione di Luigi Gavazzi & C. S.A.p.A., a holding company whose main purpose is the management of the controlling equity investment in Banco Desio, is the party which exercises control over said Bank according to applicable laws (Article 2359 of the Italian Civil Code and Article 23 of the CBL). As the result of a specific Articles of Association provision, however, **it does not exercise management and co-ordination activities** over Banco Desio and its subsidiaries, based on neither banking legislation nor statutory provisions. Brianza Unione di Luigi Gavazzi & C. S.A.p.A. does not hold any other controlling interests.

3 – BOARD OF DIRECTORS

The information in this section has been provided in accordance with Article 123-bis, section 2, letter d of the CFL. and articles 144-octies and 144-novies of the Issuers' Regulation

3.1 Composition and requisites

Banco Desio's current Board of Directors is made up of 11 Directors and was appointed by the Shareholders' Meeting held on 28 April 2008, using the list voting mechanism pursuant to section 2.1.1) above. Its term expires with the Shareholders' Meeting held for the approval of the financial statements as at 31 December 2013. The composition of the BoD, together with other information on the structure of the Management Body and Committees, is included in the attached Table 1.

On the basis of the special reference legislation for banks with listed shares, Directors must meet specific good standing and professionalism requirements, otherwise they will no longer be eligible for office. Specifically, with regard to professionalism, at least three years of experience in at least one of the following areas is required: management, audit or executive activities within companies;

professional activities in matters pertaining to the banking, financial, insurance sectors or functional activities in banking; a university lecturing position in the law or economics faculties; public administrative or executive functions pertaining to the lending sector or which involve the management of economic-financial resources. With regard to the office of Chairman, the aforementioned experience must cover at least five years. For the offices of Managing Director and General Manager, specific expertise in matters pertaining to the lending sector is required, gained in positions of adequate responsibility for at least five years. The Board of Directors is responsible for verifying that the Representatives meet the requisites within 30 days of appointment, by means of the procedure established by the Bank of Italy's Supervisory Provision. In short, the BoD checks and resolves that the requirements have been met, after consulting the Board of Statutory Auditors (who perform their own specific check¹³), for each individual representative, involving the abstention of the party concerned, on the basis of suitable documentation produced by said Representatives (examples: certificates, declarations, curricula vitae, affidavits or similar, declarations made by companies/bodies they worked with, etc.).

Information on the personal and professional characteristics of the Directors, as well as information on their satisfaction of the requirements described in this section, are published upon submission of the lists for the renewal of corporate offices, in compliance with governing Consob regulations. For more detail, refer to section 3.5 below. The aforementioned information is also made available on the website www.bancodesio.it, in the section "Organi Sociali/Documentazione Esponenti" (Corporate Bodies / Representatives' Documentation).

3.2 Independent Directors

Of the 11 Banco Desio Directors in office, **4** (including 1* candidate from the minority list as per the law) are qualified as Independent, according to the specific provisions of Articles 147-ter and 148 of the CFL and the standards of the Code of Conduct (the only exception is the criteria of "nine years" permanence in the BoD which, due to the reasons indicated in attached Table 4 in compliance with the resolution adopting the Code on 22 February 2007, is not, however, considered in itself to be indicative that the individual does not meet the independence requirement). The assessment of independence is subject to BoD resolution and appropriate review by the Board of Statutory Auditors, specifically examining the individual positions of the Directors on the basis of suitable documentation available to the company or disclosure made by the party concerned, who abstains from voting and favouring, in any case, substance over form. The checks are envisaged after appointment, as well as when establishing committees that require the participation of a certain number of Independent Directors, at the time of approval of the Self-Assessment Report of the BoD and of this Report (as well as each time the BoD considers it appropriate in relation to any situations which may change the qualification of independence relating to one or more Directors). The Directors, by virtue of said evaluations and checks performed in 2013, who currently meet the independence requisites (all in accordance with both the CFL and the Code of Conduct, with the exception of the aforementioned "nine year" criteria) are listed below:

- Professor Cristina Finocchi Mahne	(appointed	30.05.2013)
- * Pier Antonio Cutellé (Attorney)	("	28.04.2008)
- Gerolamo Pellicanò (Attorney)	("	30.04.2002)
- Professor Lorenzo Rigodanza	("	28.04.2011)

The Independent Directors, besides taking part in the Board's work and the activities of the

advisory/proposal-making Committees to which they belong (in other words, the Audit and Risk Committee and the Appointments and Remuneration Committee, of which they form the majority, as well as, the Related Party Transactions Committee, consisting solely of three of the four Independent Directors), met on 12 March 2012, to express their opinion on the aspects on this Report and the Board of Directors Self-Assessment Report, in as far as they are responsible, in consideration of the role the Code attributes, within the group of non-executive members, specifically to said Directors¹⁴. This **assessment**, which was positive and consistent with the results of the self-assessment made by the entire Board of Directors (see section 3.6 below) is attached to this Report (**Attachment A**).

3.3 Functioning

As a rule, Banco Desio's Board of Directors meets monthly, which is more frequently than the at least bi-monthly schedule envisaged in the Articles of Association. During 2013, a total of 15 meetings were held, the majority of which scheduled at the beginning of the year. For 2014, at least 14 meetings have been scheduled. The dates of the meetings to approve periodic reports (draft financial statements and consolidated financial statements, interim and quarterly financial reports) were been made public, in January, within the context of the Annual Calendar of Corporate Events, in compliance with stock exchange legislation. The publication of the Corporate Calendar falls within the sphere of a more extensive process of scheduling the Board's work for all Group companies, which sees the involvement of the same BoDs of the Parent Company and the subsidiaries, for the purpose of optimising the activities of the Corporate Bodies consistent with the general principles of efficiency and effectiveness established by both the Code of Conduct and the Bank of Italy Instruction. Internal regulations concerning the information flows between and within the Corporate Bodies are based on the same principles and were formalised in the "Information Flows Regulation for Corporate Bodies". These regulations are aimed at ensuring a circulation of information consistent with the needs of the Directors and Statutory Auditors to act in an informed manner and, at the same time, with the need to maintain organisational safeguards to avoid the risk of the improper use of confidential information. In accordance with the provisions of the Articles of Association and the Corporate Information Procedure, the Chairman calls the BoD meetings by means of a notice that contains the list of issues to be discussed at least 5 days in advance. The documentation relating to the matters on the agenda is made available to Directors and Statutory Auditors, as a rule, at least two hours before the time fixed for the meeting through an e-mail generally sent at least 3 days in advance (7 days for the previous meeting's minutes). This advance is deemed consistent by the Board of Directors and is generally observed. Confidentiality restrictions regarding the documentation and information subject to Board resolution are decreed – consistent with market abuse regulations – also by the Corporate Information Procedure, for Directors, Statutory Auditors, external auditors and all employees who enter into possession of potentially price sensitive documentation and information. In this context, specific provisions discipline access to the minutes of Board meetings, without prejudice to the fact that all interested parties are assured that the necessary information is made available to carry out their responsibilities in an informed manner. (For further details on this Procedure, see section 8 below). The information in question is also provided directly by the head of the company divisions (in particular the internal audit managers) who, to this end, are regularly called to take part in the

¹⁴ For convenience, an extract from the Comments on Standard No. 2 of the Code is presented: Non-executive directors enhance board discussions with expertise formed outside the company, of a general strategic or specific technical nature. These skills make it possible to analyse the various subjects being discussed from different points of view and, therefore, contribute towards stimulating the dialogue which is the distinctive condition for a well thought-out and informed collective decision. The contribution of non-executive directors is particularly useful on matters where the interests of the executive directors and those of the shareholders may not coincide, such as the remuneration of said executive directors and the internal audit and risk management system.

meetings (also of the internal board Committees) to help illustrate the subjects within their competence on the agenda.

3.4 Powers

The BoD is vested with all the powers of ordinary and extraordinary administration, except for the faculties reserved for the Shareholders' Meeting by legal and/or supervisory provisions. In addition to the functions which cannot be delegated, decisions concerning the following matters are reserved by the Articles of Association for the exclusive competence of the BoD, also in accordance with Supervisory Provisions:

- setting policies which affect the general management of the Bank's and Group's business and, within this sphere, decisions concerning strategic guidelines and transactions as well as the business and financial plans (see previous section 1.2.1);
- issuing and amending internal regulations, with the exception of amendments which merely adapt to the provisions of current legislation or to Shareholders' and Board Meeting resolutions already adopted and effective;
- establishing, transferring and closing down branches and representative offices;
- purchase, development and sale of real estate property assets other than those granted under financial lease as part of its institutional activities;
- purchase and sale of equity investments which involve changes in the Banking Group or, in any event, the undertaking or disposal of controlling or associated interests or which involve exceeding the authorisation thresholds according to the applicable provisions. The BoD has the faculty to delegate, establishing the related limits, conditions and formalities, the purchase and sale of shares of subsidiary companies listed on organised markets, provided that these operations take place: a) in observance of current regulations concerning issuers, brokers and markets; b) under the aforementioned authorisation thresholds;
- setting criteria for the management and co-ordination of the Banking Group and the other subsidiary companies, as well as criteria for executing instructions from Bank of Italy;
- appointing the General Manager, Deputy General Managers and Executives and determining the powers assigned to the same and to Middle Management;
- appointing the Heads of Internal Auditing Divisions as well as the Appointed Executive and defining the essential elements of the overall architecture of the internal audit system, subject to the favourable opinion of the Board of Statutory Auditors;
- if applicable, establishing, appointing and governing committees with proposal-making, advisory and/or co-ordination-related functions (such as, by way of example, the Appointments and Remuneration Committee and the Audit and Risk Committee).

Furthermore, as per the Articles of Association, the Board of Directors is assigned responsibility, which cannot be delegated but can be submitted to the Shareholders' Meeting, for the following possible resolutions: the merger via incorporation of companies wholly or at least 90% owned; the establishing and closing down of secondary offices; the reduction of share capital in the event of the withdrawal of shareholders; the adapting of the Articles of Association to peremptory legal provisions; transferring the company's registered offices within Italy.

The powers listed above include those provided for in the Code of Conduct and, in particular, the inherent responsibility of approving strategic, business and financial plans. The assessment of the general organisational and accounting set-up, envisaged by the Code, falls under the exclusive responsibilities of the BoD, established by the Internal Regulations, consistent with supervisory legislation regarding the internal audit system and individual and Group risk management policies. The Internal Regulations also reserve for the Board the specific responsibility of operational management, whose division between the BoD and the Bodies delegated by the same is expressed

in terms of both business area and/or amount (as detailed in section 4 below). In general, the approach described above also relates to the Board of Directors of the Italian subsidiary bank, taking into account the reduced operational and dimensional complexity of said subsidiary (not listed).

3.5 Appointment

Without prejudice to the description in sections 2.1.1 and 3.1 above, as part of the Code of Conduct's recommendations, Banco Desio's BoD also established in the Internal Regulations the following general criteria relating to the accumulation of the appointments by Directors¹⁵a) establishing the number of appointments as Director or Standing Auditor held in other listed companies and/or supervised companies as 5¹⁶ (excluding subsidiary, associated and investee companies directly or indirectly invested in to a significant extent by Banco Desio from this group) in cases where the "interlocking ban" does not apply pursuant to art. 36 of Law no. 214/2011; for such purposes, with regard to the notion of "investee companies invested in to a significant extent" reference should be made to the sector regulations (for example: 2% of capital for listed companies, 5% for supervised companies); b) incompatibility between the office of Executive Director in Banco Desio and any executive appointment covered in other listed companies and/or supervised companies (again excluding subsidiaries, associated companies and investee companies invested in to a significant extent by Banco Desio from this group); in cases where the "interlocking ban" does not apply pursuant to art. 36 of Law no. 214/2011; c) incompatibility between the office of Managing Director of Banco Desio and of Director in any other company (not belonging to Banco Desio Group) in which another Director of Banco Desio is Managing Director.

Without prejudice to the specific related provisions (with particular reference to those envisaged by law regarding the "interlocking ban" between competing banking, financial and insurance groups) the aforementioned general principles should not be considered compulsory and should a situation of non-compliance occur, it is not, in itself, justification for termination from office. In addition to performing a specific assessment at least annually with regard to the "interlocking ban", in compliance with the application criteria issued by Supervisory Authorities, the BoD reserves the right to evaluate any non-compliant situations on case-by-case basis, without prejudice to the principle, defined in the Code, according to which the assessment regarding opportunities to accept offices is put to the discretion of the interested parties, including in internal committees, exclusively "when they feel they are able to dedicate the time necessary to perform their duties". The offices held by Banco Desio's Directors and Statutory Auditors in the Holding Company (Brianza Unione), in subsidiary, associated and investee companies, and in other listed and/or supervised companies, are summarised in the attached [Table 3](#). The aforementioned limits on the accumulation of offices by Directors as per points a) and b) (considered to be non-compulsory within the terms indicated above) are similarly established in the Internal Regulations of the Italian Subsidiary Bank (Banco Desio Lazio S.p.A). As regards point c), note that this criterion has not yet been incorporated in the Internal Regulations of Banco Desio Lazio SpA, given the Bank's size and the fact that there currently is no Managing Director.

3.6 Self-Assessment

¹⁵ Note that for auditors' offices, specific regulatory norms are in force with regard to the number of offices which can be held (Article 144-duodecies of the Consob Issuers' Regulations).

¹⁶ In this context, "supervised companies" are understood to be: banks, insurance companies, stock brokerage companies, asset management companies and finance companies enrolled in the special register as per Article 107 of the CBL (Italian).

On 11 January 2012, Bank of Italy issued a Note regarding the “Application of supervisory provisions regarding the organisation and corporate governance of banks”, in which indications were provided regarding the self-assessment process that the Board of Directors is required to carry out annually.

On 23 February 2012, the Board approved the “Guidelines for periodic self-assessment”, in order to govern the related process, specifically identifying the methodologies to be used (mainly based on each Director compiling a specific questionnaire) and the profiles subject to analysis, at an aggregate level, regarding the composition (professional skills, independence, etc.) as well as functioning (operating practices, information flows, etc.) of the Board and its internal Committees.

The assessment method is based on a model constructed in 2012 with the support of a consultancy firm chosen from those of primary standing with expertise in the Governance, Risk and Compliance area. In application of said model, the assessment is composed of a two-pronged analysis:

- an “assessment”, i.e. an initial evaluation of the corporate documents combined with an analysis of the responses to the individual type questions (“Directors” section of the questionnaire), which complements that constituted by the responses in the “Board” section of the questionnaire;
- an analysis of the responses to the questions regarding the Board as a whole (“Board” section of the questionnaire), which represents the prevalent component of the self-assessment process.

On 20 March 2012 and 20 March 2013, the Board of Directors adopted the self-assessment resolutions with reference to the years 2011 and 2012 formulating positive judgments, taking into account the implementation, in 2012, of the measures relating to: preparing the aforementioned Information Flows Regulation for Corporate Bodies; refining the practices and procedures for distributing Board documentation; optimising certain aspects of the system of powers; planning training and continuing professional education courses for Directors; identifying a “theoretical profile” for Directors, also based on the preparation of the relative curricula upon renewal of offices.

On 19 February 2014, the self-assessment process for 2013 was launched, again using the aforementioned “Guidelines” as a reference and the same analysis methods, identifying the Appointments and Remuneration Committee and the Independent Directors as parties responsible for the initial activities for the Board of Directors to resolve on the self-assessment (the latter as part of the annual meeting dedicated to reviewing the Annual Report on Corporate Governance). On 13 March 2014, the Board of Directors resolved the self-assessment for 2013, determining that, for all analysed areas in reference to the Board and its internal Committees (quantitative composition, professional skills of the members, functioning, information flows), an overall positive opinion can be formulated.

With reference to the aforementioned theoretical profile, and therefore the areas of competency taken into consideration for the self-assessment, please refer to the appropriate document published on the website www.bancodesio.it, in the section Investor Relations / Assemblee / Assemblee 2014 (Investor Relations / Shareholders’ Meetings / 2014 Shareholders’ Meetings).

As part of the self-assessment process, consideration was given to the number of years in office (from the first appointment) of each member of the Board of Directors, as summarised below:

3.7 Training programmes

As part of initiatives aimed at continuing professional education in the sector in which Banco Desio operates, in business dynamics and their evolution, as well as the reference regulatory framework, some initiatives were implemented in 2012 and 2013, with a focus on issues related to the banking

application of Italian Legislative Decree no. 231/2001, as regards administrative liability of companies and entities. For 2014, the Board of Directors, as part of its self-assessment activities, approved a training plan which makes provision not only for a session, already held on 27 February, dedicated to corporate governance themes, but additional initiatives appropriately diversified by subject and supervisors. Within said area, provision is also made for specific sessions targeted at newly appointed representatives.

3.8 Succession plans

Banco Desio does not currently have a succession plan for Executive Directors in the event they leave office prior to the end of their term. However, in such cases, the relative legal and statutory provisions shall apply. Any in-depth examinations in this regard will be performed, with the involvement of the Appointments and Remuneration Committee, once the changes to the aforementioned Supervisory Provisions regarding the organisation and corporate governance of banks have entered into force (which, as stated, are still not definitive at the date of approval of this Report).

4 - SYSTEM OF POWERS AND AUTHORITY

4.1 General outlines

This system, regulated at senior level, by the Articles of Association and, more specifically, by Internal Regulations¹⁷, has been structured on the basis of criteria consistent with the principle that the main decisions are reserved for the Board of Directors, (in other words, those which the Bank of Italy Instruction summarises in the policy and supervision functions of corporate management) and the periodic reporting to said BoD by executive Bodies and Parties who are primarily delegated the function of managing, or rather, implementing the policies resolved by the BoD as it carries out its role of strategic supervision: **Executive Committee, Managing Director and General Manager**. The latter represents the apex of the internal structure and, as such, participates in the management function, and in the BoD and Executive Committee meetings, and also has the task of executing the resolutions adopted by said Bodies. The delegated Bodies and Parties, in addition to the general powers for their role, have different operating powers in various areas related to current operations, in particular, with regards to credit, commercial, legal and organisational issues, in line with their respective roles, as specified below. The layout of the operating powers defined in the Internal Regulations can be summarised as follows

4.2 Chairman - Executive Committee – Managing Director – General Manager

The **Chairman**, who is assigned a co-ordination and guarantee role for the purpose of the due functioning of the Board of Directors and the shareholders' meeting, and the Deputy Chairman who replaces the former in the event of his absence or unavailability, are not assigned operating powers. They and the Managing Director are assigned the representation of the Company in dealings with third parties and before the legal authorities on the basis of the Articles of Association, acting separately. Pursuant to the Articles of Association, the Chairman can adopt, for reasons of particular urgency, decisions which are the responsibility of the BoD or the Executive Committee (provided that they are not reserved by law or the Articles of Association for the exclusive competence of these

¹⁷ The system of powers is currently structured into different special powers of attorney issued from time to time to individual names for given categories of acts. The associated powers are in the course of being organised into a "Regulation of Powers" which is expected to be formalised into 2014.

bodies), with the obligation to promptly disclose the same to the BoD during the next opportune meeting. This is a procedure of an exceptional nature which has almost never been applied. The Chairman is a high-profile representative (General Partner) of the Holding Company “Brianza Unione” (see [Table 3](#), attached). As previously mentioned in section 1.2, the Chairman does not have operations powers and does not carry out operational functions individually nor de facto. The same concept applies to the Deputy Chairman. Given the increasing number of meetings and the broadening of responsibilities of the Executive Committee during 2012, of which the Chairman and Deputy Chairman are members, the Board of Directors has deemed it appropriate to consider these individuals as Executive Directors from 20 March 2013.

The Executive Committee (appointed annually and currently consisting of 5 Directors, including the Chairman, Deputy Chairman and the Managing Director) is granted operations management powers, with set limits on amounts, for matters not reserved exclusively for the BoD. Pursuant to the Articles of Association, for particularly urgent reasons, the Executive Committee may also adopt decisions which are the responsibility of the Board of Directors, provided that they are not reserved by law exclusively for the latter. The Board itself must be informed of these decisions during the first subsequent meeting.

In 2013, the Executive Committee met on a total of 18 occasions, the majority of which scheduled at the beginning of the year; for 2014 a total of 21 have been scheduled.

The **Managing Director** presents the Management Body with projects, objectives and strategies for the growth of the Bank and the Group, coordinates the management of the bank and oversees the management, coordination and control of the Group, according to the standards established by the Board. The Managing Director is granted powers, within set limits that are lower than those of the Executive Committee, limited to certain matters of particular relevance for the governance of the Bank and the Group, consistent with the role of “Director responsible for the risk management and audit system”. For example, the Managing Director is also tasked with ensuring – at an overall level – the functioning of the internal audit system, supervision of compliance risk, implementation of the process for assessing capital adequacy (“ICAAP”) and overseeing the activities associated with internal, inter-company and external corporate information, with the support of the specific divisions that report to him (Internal Auditing; Risk Management and Compliance, Planning, Management and Equity Investments Control – Investor Relations, and Legal & Corporate Affairs).

The General Manager executes the resolutions adopted by the BoD, the Executive Committee and the Managing Director and is placed in charge of the management of personnel, the organisation and functioning of company structures and carrying out current business affairs, according to the general policies established by the BoD and the Managing Director. Within the sphere of operational management, the General Manager has autonomous powers within amount limits lower than those of the Managing Director and/or the Executive Committee. In certain areas, these powers are exercised, above set thresholds, in agreement with the Managing Director.

The executive Bodies and Parties inform the BoD and the Board of Statutory Auditors, according to the provisions of the Information Flows Regulation for Corporate Bodies, with regard to activities carried out within the sphere of the assigned powers and the performance of Banco Desio and subsidiary companies. Reports are also provided which provide a comparison between the results achieved and those scheduled. Detailed indications on the amounts representative of the limits of the powers assigned are not provided, because the authorisation standards differ according to the matters dealt with.

Given the system of powers described above, even though the Managing Director (Tommaso Cartone) is the only individual with an executive role due to the operations powers assigned to him, **the Chairman (Agostino Gavazzi), Deputy Chairman (Stefano Lado) and Directors Egidio Gavazzi and Guido Pozzoli are also considered executives, as they are members of the Executive Committee and in consideration of the frequency of meetings and the expansion of its responsibilities.** For the sake of thoroughness, note that: no director (other than the Managing Director) covers executive positions within Banco Desio, or in the subsidiary companies, or in the parent companies, nor has the appointment of overseeing specific areas of the corporate operations ensuring a steadfast presence in said company and/or acquiring information from the operating structures and/or participating in the meetings of the Committees pursuant to the subsequent paragraph 4.3; no Director holds similar roles in subsidiaries or the Holding Company; the Managing Director does not hold administrative roles in subsidiaries; other Directors hold administrative offices in the Holding Company and/or subsidiaries.

4.3 Technical-operating committees

Besides the Executive Committee and the three Advisory/Proposal-making Committees discussed above, at the technical-operating level the BoD set up a Credit Facilities Committee and a Finance Committee.

The Credit Facilities Committee is made up of the General Manager, the Deputy General Manager and the heads of the Loan Division and other relevant corporate divisions. The Credit Facilities Committee normally meets once a week to resolve on/discuss given matters pertaining to the granting of credit. Despite not being a member, the Managing Director may participate in Credit Facilities Committee meetings (without voting rights but with the right to express binding opinions on the presentation to the Executive Committee or the Board of Directors of loan proposals approved during the Committee's discussions).

The Finance Committee is made up of the Managing Director, General Manager, Deputy General Manager and the heads of the Finance Division and of other relevant corporate divisions. The Finance Committee normally meets once a month to resolve on/discuss given matters pertaining to finance management.

As regards the Italian Subsidiary Bank, (**Banco Desio Lazio S.p.A.**), the system of powers is considerably simplified due to the fact that it is much less complex in terms of operations and size, as well as the Parent Company's activities of management and co-ordination, which includes outsourcing services of various business areas. This system is essentially characterised by the presence of:

- a BoD consisting of 7 Directors; this Body exercises operating powers in a systematic manner mainly with regard to disbursing credit, employing personnel and other matters in relation to which it is considered appropriate to more fully limit the authority of the appointed Parties. The Board includes the role of Independent Director as introduced by the Articles of Association, based on requisites similar to those established by the law for Statutory Auditors. At present, there is only an Independent Director who is responsible for providing opinions as envisaged in the Internal Procedure for Transactions with Associated Parties and Article 136 of the CBL of the Parent Company (as implemented by Banco Desio with the specific "Addendum"); as regards the executive directors, the presence of a Director whose assigned operating powers are substantially

restricted to powers related to commercial development should be noted;

- a General Manager charged with executing the BoD's resolutions, as well as handling business affairs and personnel. With respect to the Executive Parties of the Parent Company, this Party has proportionally reduced operations autonomy, with regard to: disbursing loans, rates and conditions; legal action taken/brought; current expenditures and extraordinary charges; personnel management.

The Chairman of Banco Desio Lazio SpA, who is assigned a co-ordination and guarantee role for the purpose of the due functioning of the Board of Directors and the shareholders' meeting, and the Deputy Chairman who replaces the former in the event of his absence or unavailability, are not assigned operating powers. They are assigned the representation of the Company in dealings with third parties and before the legal authorities on the basis of the Articles of Association, acting separately. Pursuant to the Articles of Association, the Chairman of Banco Desio Lazio SpA can adopt, for reasons of particular urgency, decisions which are the responsibility of the BoD (provided that they are not reserved exclusively for this Body by law or the Articles of Association), with the obligation to promptly disclose the same to the BoD during the next opportune meeting. This is a procedure of an exceptional nature. As already mentioned in the previous section 1.2, the Chairman of Banco Desio Lazio SpA has a non-executive role and does not carry out operational functions, not even de facto. The Chairman of Banco Desio Lazio SpA is a high-profile representative (Deputy Chairman) of the Parent Company.

The General Manager of Banco Desio Lazio SpA informs the BoD and the Board of Statutory Auditors regarding activities performed under the powers assigned and on the Bank's performance, according to the Parent Company's Information Flows Regulation for Corporate Bodies (as implemented by Banco Desio Lazio). All of the information flows received by the BoD during 2013 allowed it to make adequate assessments of the organisational and administrative/accounting structure as well as the general operations performance of the Bank and Group, with particular reference to risk governance issues. Also considering the frequency of BoD meetings, the functioning of the same ensures that all directors have adequate knowledge of management trends and that each one effectively performs his/her roles.

5 – CONFLICTS OF INTEREST – TRANSACTIONS WITH RELATED PARTIES, CONNECTED PARTIES (COLLECTIVELY REFERRED TO AS “ASSOCIATED PARTIES”) AND ARTICLE 136 OF THE CFL

The subject of conflicts of interest with reference to the various spheres of corporate operations (disbursement of credit, investment services, etc.) is subject to a prudent approach adopted by the Italian Group Banks. At present, the relevant main internal regulations for this matter are as follows:

- internal Procedure for Transactions with Associated Parties and Article 136 of the CBL of the Parent Company (as also implemented by Banco Desio with the specific “Addendum”) followed in 2013 by the issuing of the associated risk policy integrated in the “Risk Appetite Policy”;
- the “Policy” containing the general rules for governing Conflicts of Interest regarding investment services.

Internal Procedure for Transactions with Associated Parties and Article 136 of the CBL

This Internal Procedure, adopted pursuant to Article 2391-bis of the Italian Civil Code and Article 53 of the CBL, is primarily characterised by the existence of a Related Party Transactions Committee, with

regard to decision-making processes. This advisory body is composed of all 4 Independent Directors in office and entitled to receive information and/or issue opinions, which are binding in certain cases, on transactions with related parties, as set forth, based on the quantitative and qualitative criteria established by the Consob Regulation and relevant Bank of Italy Provisions, in the Internal Procedure which – in addition to the Committee's methods of operating – governs the various types of total or partial exceptions in relation to small amounts or ordinary transactions, as well as the membership to the Group of the counterpart in the transaction (in the absence of significant interests of other related parties). An independent annual expenditure budget of Euro 25,000.00 was assigned to the Committee for 2013 (and reconfirmed for 2014). The Committee meeting minutes are duly recorded in the specific register.

In 2013, the Related Party Transactions Committee, chaired by Mr. Lorenzo Rigodanza, met 5 times, to collect information and/or issue opinions mainly with regard to recurring inter-company transactions; during the year, said Committee met jointly with the Audit and Risk Committee to assess the aforementioned risk "Policy", which governs the qualitative and quantitative aspects of risk management deriving from said transactions with particular reference to compliance with the exposure limits established by supervisory regulations, and to the procedures to be followed in the event said limits are exceeded and, more generally speaking, to internal audit safeguards targeted at continuously ensuring compliance with said regulations, with the involvement of all corporate divisions; said Committee was also informed of the operating procedures issued in relation to the implementation, through an appropriately developed computer application, of the registry in which the Associated Parties are registered and of the "repository" of transactions performed with said entities from time to time.

For more information, refer to the entire Internal Procedure published, in compliance with said Regulations, on the internet site www.bancodesio.it – in the section "governo societario / operazioni con parti correlate" (Corporate Governance/Transactions with Related Parties). For a summary of these transactions relating to 2013, resolved in the aforementioned Internal Procedure, reference should be made to the financial statement disclosure and especially Part H of the Notes to the Consolidated Financial Statements.

The above also fulfils the obligation of shareholders' meeting information required by the aforementioned supervisory regulations.

The "Policy" containing the General Rules for handling Conflicts of Interest regarding investment services has the aim of illustrating the guidelines which the Group has adopted for handling conflicts of interest when providing investment services and activities, related services or a combination of these services, following the endorsement in the Italian legal system of Directive No. 2004/39/EC (hereinafter also referred to as "MiFID").

The Parent Company has established and regularly updates a register which includes - noting the types of investment and related services concerned - the situations in which a conflict of interest has arisen, or, in the case of a service or activity underway, where a conflict of interest may emerge, which risks seriously damaging the interests of one or more customers. This register is maintained and updated by the Compliance Department and other Parent Company departments according to the Consolidated Law on Conflicts of Interest, including on behalf of Group Banks.

6 – REMUNERATION AND INCENTIVE MECHANISMS - APPOINTMENTS AND REMUNERATION COMMITTEE

Criteria adopted to compensate and incentivise Group management are in line with general principles correlating these emoluments with the economic results achieved and the coherence with strategies and risk parameterisation, so as to avoid producing incentives in conflict with the interests of the Company over the long-term, as indicated in the aforementioned Bank of Italy's Supervisory Provisions.

The remuneration of Banco Desio's Managing Director, General Manager, and Executives with strategic responsibilities consists of a fixed portion and a variable portion, appropriately deferred in compliance with the aforementioned Supervisory Provisions, as better detailed in the cited Remuneration Report. With regard to the Parent Company's BoD, the Articles of Association envisage that the Ordinary Shareholders' Meeting determines the overall fee for the Directors other than the Chairman, Deputy Chairmen and Managing Director. The BoD, having consulted the Board of Statutory Auditors, contributes to the determination of the fees of the latter, as well as the division between the other Directors of the overall fee established by the Shareholders' Meeting. The division criteria also take into account appointments within the BoD and membership in the various Committees (including the offices as Secretary).

For the BoD of the Italian Subsidiary Bank (Banco Desio Lazio S.p.A), there is a mechanism with similar guidelines to those adopted by the Parent Company. It is noted that no Committees have been established within the Board of Directors in said bank.

The Appointments and Remuneration Committee is currently composed of 1 non-executive director (Paolo Gavazzi, who chairs the Committee) and 2 independent directors (also see [Table 1](#) attached to this Report). The Chairman of the Board of Statutory Auditors participates in the Committee's meetings, and other Alternate Auditors may also participate. The Managing Director participates with regard to appointments, remuneration and other actions involving parties included in the perimeter defined by the Consolidated Remuneration and Incentive System Code. The General Manager, Deputy General Manager and others who are in charge of relevant business areas (including internal audit) may be invited to participate in relation to the issues described above, as well as other employees/collaborators/consultants, depending upon the specific issues to be discussed.

This Committee is an advisory/proposal-making body with the main task of: i) formulating opinions and/or proposals on the appointment and remuneration of Directors for the BoD in cases in which the decision is the responsibility of a Board Committee of the Parent Company and/or Shareholders' Meeting/Board Committee of the subsidiaries, specifically, decisions concerning Directors who have been appointed to certain offices and/or granted operating powers, as well as the General Manager and the Deputy General Managers(s), as well as ii) formulating opinions and/or proposals for the BoD regarding general policies and specific criteria for management remuneration, including at the Group level and any stock-based incentive plans. As part of the above responsibilities, the Committee is involved in defining, assessing and monitoring retribution and incentive systems, in compliance with Supervisory Provisions. To formulate its opinions on the above matters, the Committee met 5 times in 2013, and some of the meetings saw the discussion, for areas within its competence, of issues associated with implementing the Group incentive system, adopted in 2011, and finally rationalised with the Board resolution of 19 December, in order to ensure its consistency with the objectives and

compliance with the regulations also in light of the evolution of the reference scenario. On 30 May 2013, the Committee expressed its opinion on the co-opting of the Independent Director Cristina Finocchi Mahne, in light of the criteria indicated in the Self-Assessment Report (see section 3.6 above), an in-depth assessment of the relative professional profile, which resulted in a judgment of adequacy in relation to the Bank's operating needs, with particular reference to the specific role said entity is required to fulfil within the Board and the Audit and Risk Committee. An independent annual expenditure budget of Euro 25,000.00 was assigned to the Committee for 2013 (and reconfirmed for 2014). If the Committee used consultancy services to complete his duties, it must verify that the consultant is not involved in any situations that may compromise his/her independence. The Committee meeting minutes are duly recorded in the specific register.

The Articles of Association of the Italian Group Banks also envisage that the Ordinary Shareholders' Meeting, in addition to establishing the above fees, approves the remuneration policies, including plans based on financial instruments. The Shareholders' Meeting is ensured adequate disclosure on the implementation of the remuneration policies.

For additional information on remuneration and incentive policies, refer to the Remuneration Report.

7 – INTERNAL AUDIT SYSTEM – AUDIT AND RISK COMMITTEE – EXECUTIVE APPOINTED TO DRAW UP THE ACCOUNTING DOCUMENTS – FINANCIAL DISCLOSURE PROCESS

The information in this section has been provided in accordance with Article 123-bis, section 2, letter d of the CFL

Banks are subject to regulations on the **internal audit system** established, in particular, by supervisory regulations on banking activities and the provision of investment services, issued by the Bank of Italy and Consob implementing the CBL and the CFL. As “public interest entities”, banks are also subject to the regulations of Italian Legislative Decree no. 39/2010 governing the external auditing of accounts. This system features a complex structure which involves all the corporate levels, with specific duties reserved for the Board of Directors, the Board of Statutory Auditors, the Managing Director, the General Manager and the individual in charge of internal auditing, represented by the pro-tempore Head of the Internal Auditing Department (Mr. Enrico Maria Redaelli). This Department was structured to report directly to the Board of Directors. The audit and reporting activities carried out by this Department are consistent with the specific recommendations of the Code of Conduct. The Parent Company outsources the functions of internal audit, risk management and compliance for Banco Desio Lazio SpA and Fides SpA.

* * *

In said context, the Board of Directors established an **Audit and Risk Committee** which, as shown in Table 1, is currently composed of 1 non-executive Director and 2 Independent Directors, including the Committee Chairman (Mr. Lorenzo Rigodanza). The Chairman of the Board of Statutory Auditors, or a Standing Auditor designated by the Chairman, participates in Committee meetings, and, in any event, the other Standing Auditors may also participate. In addition, the Managing Director, in his role as “Director responsible for the risk management and control system” participates. The General Manager, Deputy General Manager and the heads of internal audit, risk management and compliance departments may also be invited to participate, as well as other employees/collaborators/consultants, depending upon the specific issues to be discussed. The Audit and Risk Committee, as an internal Board committee, performs advisory/proposal-making functions and assists the BoD in its activities of

supervising the proper functioning of the internal audit and risk management system, as well as assessment of the proper use of accounting standards. The Committee reports to the BoD on activities performed and the adequacy of the internal audit and risk management system through specific reports prepared every six months. Decisions taken regarding issues that fall under the BoD's responsibilities are communicated, including verbally, at the next opportune meeting.

During 2013, the Committee met 14 times, in its role as advisory/proposal-making body for issues regarding the internal audit and risk management. Generally, the participants in the meeting, other than the Committee members, included the Chairman of the Board of Statutory Auditors and the Head of the Internal Auditing Department, as well as the managers of the Risk Management and Compliance departments. Depending on the issues to be discussed, other Auditors, the Managing Director, the General Manager, other Directors and/or employees, as well as external consultants participated in individual meetings. Specifically, in addition to the regular half-year report to the BoD on activities performed by the Committee, the primary issues addressed were in relation to the periodic Plans and results of the Internal Audit Department; the Committee also assessed various company "Policies" including the "Risk Appetite" policy and, for those aspects inherent in risk management, the 2013-2015 Business Plan and the 2014 budget. As regards certain supervisory profiles, the Committee was involved in the assessments relating to the plan of action resulting from the inspection of the Bank of Italy concluded in 2012 and the "gap analysis" required by the aforementioned Prudential Supervisory Provisions regarding internal audit systems, IT systems and business continuity (Bank of Italy Circular 263/2006). An independent annual expenditure budget of Euro 50,000.00 was assigned to the Committee for 2013 (and reconfirmed for 2014). The Committee meeting minutes are duly recorded in the specific register.

* * *

As regards the **Group Organisational Model pursuant to Italian Legislative Decree no. 231/2001**, in 2013, an additional project was carried out to update the Model with the offences of "hiring foreign individuals with improper documentation" (Italian Legislative Decree 109/2012) and "corruption between private individuals" (Italian Law 190/2012).

The powers and functioning of the Board of Statutory Auditors in its role as Supervisory Body pursuant to Italian Legislative Decree no. 231/2001 (hereinafter, SB 231) were described in detail in the aforementioned Model and in a specific Regulation attached therein. The SB 231 is envisaged to have independent powers of initiative and control, supported by the Internal Auditing Department in supervisory activities, and must report every six months to the Board of Directors on activities performed. The SB 231 currently has an independent budget for expenses of Euro 500,000.00 for 2013 (reconfirmed for 2014), in relation to other actions associated with the project to review the Model, with particular reference to training activities.

* * *

In relation to existing risk management and internal audit systems in the **financial disclosure process, consolidated or otherwise**, a series of disclosure, audit and intervention powers have been assigned to the Appointed Executive pro-tempore (Mr. Piercamillo Secchi)¹⁸, which essentially involve:

¹⁸ Based on a continuity approach, provision has been made henceforth for the replacement of Mr. Mauro Walter Colombo (Head of the Administration Division) once the existing contract with Mr. Piercamillo Secchi has expired on 30 April 2014

- the possibility of receiving data/information from specific corporate divisions; the right to carry out audits autonomously and through the Internal Auditing Department, as well as the right to request organisational changes in administrative-accounting activities;
- the possibility of participating in Board meetings which deal with administrative-accounting aspects and proposing policy and co-ordination actions vis-à-vis Group Companies (such as the appointment of his own Contact Persons in these Companies);
- the recognition of the financial autonomy of said Appointed Executive through the management of a specific annual expenditure budget.

The Articles of Association state that the BoD appoints the Appointed Executive, subject to the favourable opinion of the Board of Statutory Auditors and mandate the integrity and professional standing requirements, consistent with the current legislation for bank representatives. In particular, this party must possess specific expertise with regard to administrative-accounting matters gained, in a period of no less than three years, in positions of operating responsibility in the Company, the Group or other comparable companies or entities in terms of activities and organisational structure.

The Appointed Executive is currently on the staff of the Managing Director and is supported directly by the Administration Division, maintaining constant supervision over the financial reporting process, to ensure the reliability and integrity of the accounting and operating information, consolidated or otherwise, with particular reference to the so-called “key accounts”.

With regard to the risk management and internal audit system in relation to the financial disclosure process, the BoD defined a specific risk control model relating to financial disclosure (“Financial Disclosure Control Model”), which is an integral part of the internal audit system at Group level. As indicated below, the main responsibilities of this model are assigned to the Appointed Executive.

The Control Model allows for the fulfilment of regulatory obligations relating to the adoption of a risk management and internal audit system for the financial disclosure process.

In this regard, the set of tasks aimed at identifying and assessing risks and controls on financial disclosure are part of the more general management process of the Control Model, which is broken down into the following phases:

- planning;
- implementation;
- assessment;
- reporting.

Based on the Model's scope, which applies to the entire Group, the tasks in each phase are carried out for both the Parent Company Banco Desio and, as far as compatible, for the Group Companies included in the scope of consolidation.

Phases in the Risk Management and Internal Audit System for the financial disclosure process

Within operations, Banco Desio has identified and defined the following types of financial disclosure risk, in line with its risk mapping:

- “risk of unintentional errors”: the risk of material errors in the financial statements from actions unintentionally committed or omitted, resulting from the inadequacy or malfunctioning of procedures, human resources and internal systems, or from external events;
- “risk of fraud”: the risk of material errors in the financial statements resulting from an intentional act, committed in order to gain unjust or illegal advantages through false financial disclosure.

In addition, criteria have been established for identifying the specific significant company components,

items and accounting schedules on which to focus the activities of planning, development and maintenance of administrative-accounting processes (including processes for reporting to the Parent Company by the subsidiaries for the purpose of drawing up the consolidated financial statements) as well as the phase of risk and control assessment. In particular, with regard to this phase, the assessment of risks and the effectiveness of controls is conducted in accordance with the methods defined by the Appointed Executive, shared with the Internal Auditing Department, and with support as necessary from the Parent Company's Risk Management and Compliance Department. In order to identify the approaches to assess financial disclosure risks, the Appointed Executive may avail of the Parent Company's operating risks management division. For the other Group Companies, the Internal Contacts of the Appointed Executive avail of each Company's operating risk management division, where existing. For the specific purpose of assessing risks and controls in the disclosure system, the Appointed Executive is supported by the Human Resource Department as well as, where needed, the Parent Company's Internal Auditing Department. For the other Group Companies, the Internal Contacts of the Appointed Executive avail of the support of the Operating Department as well as, where needed, the Controller.

In terms of the methods used to inform top management on the Financial Disclosure Control Model, the Appointed Executive reports to the Bank's Corporate Bodies on the adequacy and effective application of said Model. In this regard, taking into account the provisions of Italian Legislative Decree no. 39/2010 on external auditing of accounts, the Appointed Executive:

- supports the Board of Statutory Auditors and the Independent Auditing Firm in assessing the correct use and homogeneity of accounting standards for the purpose of preparing the individual and consolidated financial statements;
- provides the Supervisory Body pursuant to Italian Legislative Decree 231/01 with the related certification pursuant to art. 154-bis, section 5 of the CFL as well as indications when specific critical situations are detected relating to the adequacy or operation of the financial disclosure control model;
- draws up an annual report to submit to the Managing Director and the General Manager (according to their respective powers established by the Internal Regulation), subsequently transmitted to the Board of Statutory Auditors. This report contains:
 - o an explanation of activities carried out as well as any key critical situations found in the operation of the financial disclosure control model;
 - o an assessment of the significance of the risk, by proposing Group Companies considered "significant" and financial statement accounts classified as "critical", to be analysed the following year;
 - o planning of activities to be carried out for the following year, also in consideration of the above points.

Roles and functions

The responsibilities relating to the implementation and operational phases of the "Financial Disclosure Control Model", taking into account the applicable regulatory context, which assigns specific responsibilities to the Appointed Executive, are assigned to Corporate Bodies and mainly to the Appointed Executive. For the purpose of carrying out his duties relating to preparing company accounting documents (mainly annual Financial Statements and Interim Financial Reports), the Executive is aided by the competent company officers of Banco Desio and the other Group Companies.

Operationally, the Appointed Executive specifically avails of the support of the Administration Division and coordinates with departments of Banco Desio and Group Companies in order to receive information on the performance of activities which influence the economic, equity or financial position of Banco Desio and the other Group Companies. Specifically, the Appointed Executive:

- interfaces with the Parent Company's Human Resource Division in order to verify that the administrative-accounting processes are formalised in specific organisational procedures, requesting specific supporting documentation from the Division ;
- has the right to request specific certifications from the Human Resource Division regarding:
 - o the correct operation of company infrastructures and applications used to acquire, process and represent administrative-accounting information;
 - o the existence of adequate procedures to guarantee the protection of company informational assets, also with regard to outsourced IT processes.
- promptly acquires information on planned activities and the subsequent results of activities carried out by the Parent Company's Internal Auditing Department, and may avail of the support of said Department in carrying out its controls;
- has the right to request the Management Control and Risk Management Department to carry out additional analysis and assessment of risks in administrative-accounting processes he identifies periodically when selecting "key accounts";
- may request the Compliance Department to provide consulting for the assessment and management of compliance risk as well as for any corrective actions to be implemented;
- for the purpose of transmitting the certifications/declarations to the market (with specific regard to the annual, half-year and quarterly financial statements), requests that the "Parent Company's Process Managers" issue specific internal certifications, or may assign said internal structures to carry out specific audit activities for the purpose of verifying the correct performance of administrative-accounting processes. As proof to support the certification and audit activities, the Appointed Executive may acquire specific internal documentation and/or reports from the business structures involved.

For Group Companies, the Appointed Executive interfaces with the Contacts specifically identified for each Company (Internal Contacts of the Appointed Executive) on the reporting flows to acquire to ensure the regular preparation of the (annual and half-year) Consolidated Financial Report as well as the Consolidated Interim Report on Operations (first and third quarter). Operationally, he receives specific certifications from his Contact containing, at a minimum, the following information:

- assessment of the adequacy and effective application of administrative-accounting procedures, with specific reference to controls implemented to mitigate the main risks;
- assessment of the adequacy of controls and, more generally, of the organisational safeguards on financial disclosure established at company level;
- correspondence of the equity, economic and financial data and additional information provided for preparing the annual and half-year financial report with the accounting books and records;
- compliance of the accounting documents with the applicable international accounting standards;
- any critical situations, risks and uncertainties arising from the audits performed, as well as the related action plan

8 – CORPORATE INFORMATION

Governance of corporate information is formalised in the Corporate Information Procedure, first approved in due course by the BoD and most recently updated, as mentioned, on 29 January 2013, containing, inter alia, the procedures for calling the Board of Directors and the Committees, for the provision of documentation on items on the agenda and the related confidentiality restrictions (also

see previous section 1), and discipline of the register of parties who, within the Group, have access to the privileged information before its circulation.

The Procedure also disciplines disclosure obligations regarding Internal Dealing, in accordance with current provisions of the CFL and Consob, for transactions carried out on ordinary and savings shares issued by Banco Desio by Significant Parties (Shareholders or Representatives), reserving the BoD the right to establish any restrictions or time-limits on transactions on listed securities issued by Banco Desio. The party appointed to receive, handle and disclose the communications is the General Secretariat and Corporate Affairs Department. During 2013, transactions for a total equivalent value of around Euro 50 thousand, were reported by the Shareholders and Representatives and published by the Company.

Banco Desio published all the corporate documentation made public by law/regulations on its own website in full: The Italian Subsidiary Bank (Banco Desio Lazio S.p.A) has its own dedicated website, albeit linked to Banco Desio's site.

On 29 January 2013, pursuant to Article 3 of Consob Resolution no. 18079 of 20 January 2012, the Board of Directors resolved to adhere to the "opt-out" regime envisaged in Articles 70, paragraph 8 and 71 paragraph 1-bis of Consob Regulation no. 11971/99, taking advantage of the right to deviate from publishing obligations for disclosure documents described in Attachment 3B of said Consob Regulation, in the event of significant transactions involving mergers, spin-offs, share capital increases through in-kind contribution of assets, acquisitions and disposals.

9 – BOARD OF STATUTORY AUDITORS

The information in this section has been provided in accordance with Article 123-bis, section 2, letter d of the CFL and articles 144-octies and 144-novies of the Issuers' Regulation

Banco Desio's Board of Statutory Auditors in office was also appointed by the shareholders' meeting held on 28 April 2011 with the list voting mechanism illustrated in the previous paragraph 2.1.I), and falls from office as of the date of approval of the financial statements as at 31 December 2013; its composition is that illustrated in attached [Table 2](#). The statutory auditors elected from the minority list are the Chairman of the Board (Mr. Eugenio Mascheroni) and an Alternate Auditor (Mr. Carlo Maria Mascheroni).

In addition to the integrity and independence requisites and the causes of ineligibility envisaged by special legislation and by the Code of Conduct for listed banks, the Statutory Auditors must meet – on penalty of forfeiture – the following professional standing requirements: at least one Standing Auditor and one Alternate Auditor (and, in any event, the Chairman) must be enrolled in the register of chartered accountants; those who do not meet this requisite must have gained specific experience in the activities and the sectors indicated in the Articles of Association. The satisfaction of requirements is verified by means of the "supervisory" procedure described by the BoD and, in implementation of a specific recommendation of the Code of Conduct, said Board carries out a specific check on the observance of said requisites. All the Statutory Auditors have been chosen from among those enrolled in the register of chartered accountants and are independent on the basis of both the CFL and the Code of Conduct (with the exception of the criteria of "nine years" permanence on the Board of Statutory Auditors which, due to the reasons already mentioned for the Directors in compliance with the resolution adopting the Code adopted on 22 February 2007, is not, however considered in itself an indication of non-compliance with the independence requirement).

The lists of the other offices held by the Statutory Auditors, pursuant to Article 2400 of the Italian Civil Code and Article 148-bis of the CFL, are published in the prescribed methods and timeframes, together with the information on the personal and professional characteristics of the Statutory Auditors (published upon submission of the lists for the renewal of corporate offices, in compliance with governing Consob provisions), and are available on the website www.bancodesio.it in the section “Organi Sociali/Documentazione Esponenti” (Corporate Bodies / Representatives’ Documentation). The Internal Regulations of the Italian Subsidiary Banks include a general limit on the accumulation of the offices of statutory auditor, by virtue of which these Statutory Auditors cannot undertake this office when they already cover the office of member of the audit body in five listed or supervised companies, in cases where the “interlocking ban” does not apply pursuant to Article 36 of Italian Law no. 214/2011; it is also established that the Statutory Auditors cannot undertake offices in bodies other than the Board of Statutory Auditors within other Group Companies, as well as with companies in which Banco Desio directly or indirectly holds a strategic investment ¹⁹.

The Boards of Statutory Auditors of Banco Desio, Banco Desio Lazio SpA and Fides SpA perform the functions of SB 231. During 2013, Banco Desio’s statutory auditor held a total of 76 collective meetings and assessment inspections at the head offices or the branches. The activities of the statutory auditors with reference to participation in the meetings of the Corporate Bodies are likewise summarized in [Table 2](#); the other appointments covered by the statutory auditors in subsidiary, associated and investee companies or in listed and/or supervised companies are shown in [Table 3](#).

The Board of Statutory Auditors performed its self-assessment process using the same method already adopted by the Board of Directors (see section 3.6 above), which concluded with an equally positive judgment.

10 – DEALINGS WITH SHAREHOLDERS – FUNCTIONING OF THE GENERAL SHAREHOLDERS’ MEETING

The information in this section has been provided in accordance with Article 123-bis, section 2, letter c of the CFL

As indicated in section 8, Banco Desio publishes the documentation of interest to its shareholders on its website, with particular reference to that pertaining to the exercise of their rights (attendance and voting, dividends, etc.), as managed by the Legal and Corporate Affairs Department, which is on the staff of the Managing Director. Specifically, the notice of calling for Banco Desio’s Shareholders’ Meeting is published, within the legal deadlines differentiated according to the issues on the agenda, on the internet site www.bancodesio.it – in the section “Investor Relations/Assemblea” (Investor Relations/ Shareholders’ Meeting), and concurrently in the national press. The Articles of Association of the Italian Subsidiary Bank (Banco Desio Lazio S.p.A) envisage simpler procedures, in relation to the aforementioned ownership set-up of these subsidiaries. In particular, as an alternative to publication in the Official Gazette, it is permitted to forward the notice of calling to those entitled to attend as recorded in the shareholders’ register, via means suitable for ensuring proof of receipt, at least 8 days before the date fixed for the Shareholders’ Meeting. In the absence of the calling formalities, the Shareholders’ Meeting is deemed to meet quorum requirements in plenary form as per Article 2366 of the Italian Civil Code.

¹⁹ As indicated by section 2.2.e) of the Bank of Italy Instruction, “strategic” for such purposes is understood to mean the equity investment which is equal to at least 10% of the share capital or the voting rights during ordinary Shareholders’ Meetings of the investee company and 5% of the consolidated regulatory capital of the Banking Group.

The notice of calling contains indications on methods for exercising the right to attend and vote, as summarised below.

Pursuant to Art. 83-sexies of Italian Legislative Decree no. 58/98 (CFL) and Art. 10 of the Articles of Association, parties holding the right to vote who have sent the Company a notification issued by an authorised intermediary based on the evidence in its accounting records at the end of the seventh trading day prior to the date set for the Shareholders' Meeting on first calling may participate in the Shareholders' Meeting, or be represented according to the methods set forth by law. Those who are shown to hold shares only following said date shall not have the right to participate or vote in the Shareholders' Meeting.

Each party entitled to participate in the Shareholders' Meeting may be represented according to the methods set forth by law, without Articles of Association exceptions or limitations, by way of written proxy, as explained in detail in the notice of calling for the Shareholders' Meeting.

The proxy may be granted to a Designated **Representative of the Company as defined by Article 135-undecies of Italian Legislative Decree no. 58/98**, without cost to the shareholder, with voting instructions for all or some of the proposed agenda items, as explained in detail in the notice of calling for the Shareholders' Meeting.

Pursuant to Article 127-ter of Italian Legislative Decree no. 58/98, shareholders may ask questions about the agenda items, including prior to the Shareholders' Meeting, as explained in detail in the notice of calling for the Shareholders' Meeting.

Pursuant to Art. 126-bis of Italian Legislative Decree no. 58/98, shareholders who, including jointly, represent at least one-fortieth of the share capital with voting rights may request items be added to the agenda, indicating the additional issues proposed in their request, as explained in detail in the notice of calling for the Shareholders' Meeting.

The Articles of Association of the Italian Subsidiary Bank (Banco Desio Lazio S.p.A) envisage that shareholders be entitled to attend meetings subject to the shares having been deposited at least two days before the date of the meeting. The shareholders of these subsidiaries may arrange for themselves to be represented in the general meeting, only by other shareholders.

The Shareholders' Meeting Regulations, which discipline the business of the meetings, including to the extent applicable the Special Savings' Shareholders' Meeting, aim to ensure the orderly participation of those entitled to attend, in line with the indications which emerged from the work carried out originally care of the pertinent Trade Associations. The underlying criteria which inspired the drafting of the Regulations was to guarantee a certain discretion in the powers of the Chair, albeit in observance of legal and Articles of Association provisions, aimed at permitting appropriate flexibility in handling the general meeting business and ensuring the exercise of the rights of the shareholders, in particular the right to take part in the discussion, also with the faculty to reply. The provisions strictly pertaining to the undertaking of the Chair of the meeting, the right to attend, personally or via proxy, the right to vote and the resolutions adopted by the meeting, remain disciplined by the Articles of Association, which furthermore do not envisage departures from the legal norms.

The minutes of the Banco Desio Shareholders' Meetings are taken by a Notary, including for Ordinary Shareholders' Meeting. In 2013, an Ordinary Shareholders' Meeting of Banco Desio was held to

approve the financial statements as at 31 December 2012 (Ordinary shareholders' meeting on 30 April 2013).

As regards the Special Savings Shareholders' Meeting, refer to section 11 below.

11 – SAVINGS SHARES – SPECIAL SHAREHOLDERS' MEETINGS – COMMON REPRESENTATIVE

The information in this section has been provided in accordance with Article 123-bis, section 2, letter d of the CFL

The characteristics of Banco Desio savings shares are indicated in the previous section 2 (Information on the ownership set-ups and on the Group), to which reference should be made. With regard to the organisational aspects of this category, the Articles of Association discipline the procedures for the disclosure to the Common Representative of potentially price sensitive transactions for savings shares, establishing that the Common Representative's fee may be paid by the Company through an Ordinary Shareholders' Meeting resolution and assigns the Common Representative management of the expense account to protect the category's interests, with the obligation to report to the Special Shareholders' Meeting. With regard to the Special Shareholders' Meeting, in addition to the appointment and activity requirements for the Common Representative, the Articles of Association refers to the law. The Special Shareholders' Meeting held on 28 April 2011, resolved:

- subject to reporting on the activities carried out, confirmation of the appointment of Mr. Franco Fumagalli Romario as Common Representative for three accounting periods, with allocation of an annual fee of Euro 10,000, inclusive of the lump-sum reimbursement of costs for fulfilling his duties and net of VAT and welfare contributions;
- establishment of a fund for the expenses necessary to protect the common interest for an amount equivalent to the fee due to the Common Representative, formally acknowledging that the recourse on the profits due to the savings shareholders exceeding the minimum guaranteed by the Articles of Association as envisaged by law, does not take place if the Ordinary Shareholders' Meeting resolves to assume the fee due to the Common Representative, to be paid by Banco Desio (resolution that was then adopted by the Ordinary Shareholders' Meeting held on the same date);
- to establish that the Common Representative must provide account of the use of the fund and, in any event, any costs incurred, as well as, in general, activities carried out, during the first Special Shareholders' Meeting called to resolve on the appointment to the office.

As envisaged in the Articles of Association, Banco Desio, as a rule via the General Secretariat and Corporate Affairs Department, promptly informs the Common Representative of price sensitive corporate transactions, usually via the forwarding of press releases and any other documentation made public by law. Thus far, no resolutions have been adopted by Banco Desio's Bodies which are detrimental to the rights of the category, such that they would require the approval of the Special Shareholders' Meeting.

12 – INDEPENDENT AUDITING FIRM

The company appointed to audit the accounts in accordance with the law is Deloitte S.p.A. with registered office in Milan. Upon the proposal of the Board of Statutory Auditors, the assignment was granted by the Shareholders' Meeting of 26 April 2012, with the total duration until the approval of the 2020 financial statements. The total agreed fee is Euro 105,000 annually. The individual responsible for the audit assignment is Mr. Maurizio Ferrero. The same company "Deloitte" is appointed to audit the accounts, again in accordance with the law, of all the Italian subsidiary companies, as well as the

Holding Company Brianza Unione di Luigi Gavazzi & C., with a duration, where possible, in line with that of the Banco Desio appointment.

13 – CHANGES AFTER THE END OF THE ACCOUNTING PERIOD

Between the date of the end of the last accounting period (31 December 2013) and the below-indicated date of approval of this Report, no significant changes took place with respect to those illustrated in the previous sections.

It should be noted that, on the same date, the Board of Directors deemed it useful to launch a project for the review of the Articles of Association, in order to update certain clauses principally in light: i) of amendment provisions (Italian Legislative Decree no. 91/2012 which amended Italian Legislative Decree no. 27/2010) regarding the “rights of shareholders”; ii) the evolution of supervisory regulations with particular reference to the 15th update of Bank of Italy Circular no. 263/2006 regarding internal audit systems.

The proposed amendments, even though partly regarding the regulation of savings shares, are not detrimental to the rights of the category and, therefore, do not need to be presented to the Special Shareholders’ Meeting pursuant to Article 146, section 1, letter b) of Italian Legislative Decree 58/1998.

The effectiveness of the proposed amendments is subject to the issuing of the assessment provision by the Bank of Italy in accordance with Article 56 of Italian Legislative Decree no. 385/1993.

For more information please refer to the report of the Board of Directors regarding said matter placed on the agenda of the Shareholders’ Meeting called for 29 April.

Desio, 13 March 2014

On behalf of the Board of Directors
The Chairman
(Mr. Agostino Gavazzi)

INDEPENDENT DIRECTORS' ASSESSMENT OF THE ANNUAL CORPORATE
GOVERNANCE REPORT

On 12 March 2014, the Independent Directors of Banco di Desio e della Brianza SpA met, consisting of:

- Pier Antonio CUTELLÉ (Attorney, Coordinator of the meeting)
- Professor Cristina Finocchi MAHNE
- Gerolamo PELLICANÒ (Attorney)
- Professor Lorenzo RIGODANZA

The meeting was called pursuant to Article 2.10 of the Corporate Bodies' Internal Regulation, in fulfilment of the provisions of the Code of Conduct for Listed Companies.

Having reviewed the draft of the "Annual Report on Corporate Governance and the Ownership Set-ups of the Group", pursuant to Article 123-bis of the CFL, we offer a positive opinion, noting in particular the adequacy of the number of Independent Directors and the role they perform. Specifically, the Independent Directors are part of the Board's three advisory committees (Related Party Transactions Committee, Audit and Risk Committee and Appointments and Remuneration Committee), for which they constitute at least a majority if not the entire membership. Our opinion is consistent with the results of the self-assessment carried out by the entire Board of Directors.

This opinion is referenced in section 3 of said Report.
